S.O.S. DEKORACE offers components of children´s corners which you can combine at Your wish. You can order complete children´s corners according to the offer or You can let us build You an original playground based upon your requests.

We design unique toys according to wishes and needs of our customers. We use 3D printer to print a reduced prototype of the corner in order to Your better imagination. After mutual agreement we produce the components of children´s corner in real measures. Our production is based on high-tech machines.

Quality is our number one for us in terms of importance so we check the quality of the product in every stage of the production process.

All materials used are in accordance with the quality requirements and with all legal norms regarding safety of children´s toys. Our products are a result of the work of experienced workers who control the whole production process – from order to design, production itself and final delivery. You can choose a type of impact area upon your wish from our catalogue or You can leave our designers to do the job.
