events

Event tells a story. Each story should have a special environment which creates the desirable atmosphere. We put a huge emphasis on the project preparation and also on our mutual coordination regarding your visions and our ideas.

Shell Event

We have produced decorations for a magnificent dance show in London. They were inspired by adventurous film genre such as Tomb Rider or Indiana Jones. The stone monster has enabled artists effective entry at the stage. The statue was 9 metres high and was made of polystyrene with very authentic patina.

The unique concept is a magnet that attracts our customers. They want us to produce a facade of giant stone blocks, a prehistoric restaurant, a relaxation zone, an ice castle, a jungle or an Egyptian facade.

Average quality is not enough for our clients. They have their own vision while entrusting production to professionals.
